DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 21, 28, 31 and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Denny et al. (US 6,047,209).

A method of dispensing a substance into a mouth wherein the substance is selected from a group consisting of a breath freshener, a medication and a flavoring agent (Abstract). The method comprises the steps of: (a) providing a mouth and tongue stud (103,201) including a means for dispensing a substance formed in a portion of the stud (Abstract). The means of dispensing a substance contains the substance (Abstract); (b) mounting the stud in a fistula of a wearer's tongue or in the wearer's lip (Fig. 3); and (c) dispensing the substance into the wearer's mouth (fig. 3).

Application/Control Number: 10/697,083

Art Unit: 3677

The substance is disposed into the wearer's mouth by dissolving the substance over time in the wearer's saliva (once the substance is dispensed upon application it will dissolve over time).

Page 3

Regarding claim 31 having similar limitations to claim 21, the rejection of claim 21 serves to reject claim 31 since it has similar limitations and Denny discloses that the substance is a medication (C. 3, L. 29-45).

A method of dispensing a substance into a mouth wherein the substance is a medication. The method comprises the steps of: (a) providing a mouth and tongue stud including a means for dispensing a substance formed in a portion of the stud (Abstract). The means of dispensing a substance contains the medication (Abstract); (b) mounting the stud in a fistula of a wearer's tongue or in the wearer's lip (Fig. 3); and (c) dispensing the substance into the wearer's mouth (fig. 3). The stud comprises a bar (103,201) having ends, a first end member (tip of 13,201 as shown in fig. 3) is attached to one end of the bar and a second end member (404) is attached to an other end of the bar (Figs. 1-5). The bar is made of metal (C. 4, L. 43-46).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 10/697,083 Page 4

Art Unit: 3677

4. Claims 22-27, 29, 30 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Denny.

Denny discloses a method for dispensing a medication in accordance with the steps mentioned above for the rejection of claims 21, 28, 31 and 37. Denny discloses the use of salve, hydrogen peroxide, polysporin and other antibiotic or cleansing fluid as the medication. Denny fails to disclose that the substance comprises a breath freshener or a flavoring agent or a breath freshener mixed with a flavoring agent or a medication mixed with a breath freshener or a medicine with a flavoring agent.

However, it would have been obvious to one having ordinary skill in the art at the time of Applicant's invention that the substance can comprises a breath freshener or a flavoring agent or a breath freshener mixed with a flavoring agent or a medication mixed with a breath freshener or a medicine with a flavoring agent since it is well known in the art of dispensing medicines into a wearer's mouth to use breath freshener or flavoring agents in combination with the medication in order to provide an attractive flavor to the medicine being disposed. Especially, since the flavor of the medication cause nausea.

Response to Arguments

5. Applicant's arguments with respect to claims 21-31, 36 and 37 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Warren, Jr. (US 3,754,332), Lariccia et al. (US 3,943,928), Cournut et al. (US 4,020,558), Harris et al. (US 4,551,329), Garay et al. (US 4,861,268), Stanley et al. (US 5,855,908), Denny et al. (US 6,047,209), Katz (US 6,326,022 B1) and Levy et al. (US 6,592,860) are cited to show state of the art with respect to devices used to deliver a medication or other substance into a wearer's mouth.
